## To whom it may Concern

We would like to take this opportunity to express our gratitude to Mr. J.P. Srivastava for his incredible contribution to J&K Bank. Mr. J.P. Srivastava has been handling many projects related to J&K bank for many years with immense dedication. Our association with 'Allied' for several years has been professional yet affable. It's been a relationship of trust and sincerity.

His experience in the field of architecture has been the strength of their organization and all our projects are reflection of that. His approach to design doesn't solely come from a good idea but also the know-how required to execute the idea. A thoroughly pragmatic designer, he knows all the techniques and course of actions needed to get certain things done.

He takes pains to get everything perfect in terms of planning and execution. His personal involvement in every project, big or small, is the key to the firm's success over the years.

Apart from being an excellent designer, JP Srivastava is also a wonderful person, full of good humor and spontaneity. We have also found his staff to be very co-operative and professional.

In nutshell, our association with them has been a long and fruitful one, and we shall continue the same for many more years as well. We recommend them to everyone seeking their services.
